D'Appolonia Consulting Engineers
10 Duff Road
Pittsburgh, Pennsylvania 15235

Dear Larry:

Enclosed is the Dead Creek Report and water analysis from two landfills in the American Bottoms. I'm sorry that I can't give you more information on organic analysis data. This is because we only do organic analysis for special situations. Our quarterly groundwater data is mainly inorganics.

The East St. Louis site is located in Sec. 5, T.2N., R.9W. and Fairmont City at SW of NE of Sec. 8, T.2N., R.9W.

If I can be of any further assistance, please call me at the above number.

Sincerely,

Sherrilyn M. Otto, Manager
Drill Rig Unit
Compliance Monitoring Section
Division of Land Pollution Control
